Experience

Founding Product Designer | OverseeAI

May 2026 – Present

- Designing the core product: an agentic workbench where insurance teams create, verify, and compare ratebooks, with AI agents running the work and human-in-the-loop gates keeping experts in control.
- Building Vantage, a WCAG 2.2 AA design system for a greenfield enterprise insurance platform (**25+ components**, versioned releases) powering **8+ end-to-end flows**.
- Authored DESIGN.md + design tokens, consumed by AI coding agents on every build, so no demo or prototype ships off-spec.
- Defined a three-tier voice system (product / agent / status) and shipped it as a Claude skill, so every screen's copy is generated to spec, with no separate copywriting pass.

Learning, Building & Reset

May 2025 – Apr 2026

- Guest Lecturer at **NIFT Mumbai**, teaching a session on UX audits, user research, and AI-assisted design.
- A deliberate year: retrained in AI-assisted design and systems thinking, with time for health and family.

Sr. Product Designer | ICICI Lombard

Feb 2024 – Apr 2025

- Redesigned the flagship mobile app around research with **14 users** and **38 stakeholders**. Customer service calls fell **37%** post-launch.
- Built the company's first design system, standardizing UI patterns and cutting handoff time by **30%**.

Sr. Product Designer | Lenskart

Jan 2023 – Feb 2024

- Led the Home design pod at Lenskart.com, driving a **14%** increase in Home-to-Product listing-page conversion; the Home and Explore redesign lifted cart conversion by **20%**.
- Redesigned the Lenskart at Home service flow, lowering drop-offs by **30%**.

Product Designer | Axis Bank (via THEM Consulting)

Jul 2021 – Jan 2023

- Led design and implementation of the mobile app's service pages, reducing customer service calls by **70%** and task completion time by **45%**.
- Shipped "One View", reaching **40% adoption** in its first month.
- Redesigned the FD booking flow, driving a **5%** increase in deposit amounts.

Projects

MyFood (Android app)

Mar 2026 – May 2026

- Designed and built a nutrition app reframing calorie-counting as food-group balance, solo, from concept to Play Store Early Access.

Education

Bachelor of Design, Unitedworld Institute of Design

2017 – 2021

Design Thinking and Innovation, Harvard Business School Online

2025

Skills & Tools

DESIGN	UX strategy, User flows, Experience mapping, Rapid prototyping, Motion design, Design systems, Branding, User interviews, Usability testing, Competitor analysis, A/B testing
AI-NATIVE	Non-Deterministic UX, Design-to-Agent Handoff (DESIGN.md + design tokens), Agent & Skill Authoring, Evaluation Design
TOOLS	Figma, Cursor, VS Code, Claude Code, Lottie, Adobe Suite, Lovable, Stitch
